Home Page

The newly released version of the App "Fun Travel in Taipei" provides you the feature to search the destination by transit planning directly from the Home Page's search bar, and the shortcut to access the major functions of Bus, YouBike, Traffic, Transit, Taxi, Other, MRT, Intercity and Parking.

The most frequently used major functions are lied at the bottom tabs of the App, including Home, Bus, YouBike, and Traffic. From the upper left menu, you can open the side menu for the functions of Information Center, Settings, and Contact Information.

Search Bus Route

Tap the search bar "Search Bus Route" around the top, and the keyboard will be displayed, where you can enter the bus route to search and select the searched result to find the real-time bus dynamic information.

Tap on the bus stop from the real-time bus dynamic information, you can select other related function from the pop-up menu.
